

## PARKING PETITION LETTER

The Parent Advisory Committee recognizes that safety is an issue in the Robert Ogilvie parking lot. Our concerns have been expressed to the School District, but we have not been successful in obtaining a desirable result. We have prepared a letter of concern for the School District, proposing the following options to provide for more parking:

1. The grass area in front of the main entrance could be reduced to a single strip of grass and shrubs and the other area be paved for parking stalls, retaining the u-shaped driveway through the front. The grass area then could be planted with shrubs, with the flagpole in the center.
2. The grass area to the north of the u-shaped driveway could be removed and paved for parking.
3. The paved area to the south of the main entrance could be used for parent parking.
4. The trees in the SE corner of the playground could be removed and the area paved for parking.
5. Other options?

We want the School District to act on our concern and work toward improved conditions for student safety. If you agree that we need improved parking, we ask for your support by signing the statement below and returning to the school no later than Wednesday, May 9, 2007. We also welcome your comments or suggestions.

---

I agree that the parking at Robert Ogilvie needs to be improved in order to ensure student safety and I support the Parent Advisory Committee in their endeavour to take this issue forward to the School Board.
